

# SiO2 PASTE WAX

## TECHNICAL DATA SHEET

REFERENCE: #21001

Sizes:

DURABILITY SCALE

GLOSS SCALE

### TECHNICAL DATA:

- Flash Point: >200 F (>100 C)
- Appearance: Bone white
- Physical State: Solid (Waxy)
- Odor: Sweet
- Specific Gravity: 0.82 g/cm<sup>3</sup>, 6.84 lb/USGal (H<sub>2</sub>O = 1)
- Dangerous Goods: Not regulated - US DOT, IMDG

### DESCRIPTION:

SiO<sub>2</sub> Paste Wax is the ultimate paste wax for today's harsh atmospheric streets. Fully synthetic, non organic chemistry, delivering a more durable, hydrophobic, reflective shine that escapes conventional carnauba-based paste waxes. Harmful acid rain droplets fly off the surface, leaving your ride both protected. Stand out on the street with this unique, clean rich look!

### DIRECTIONS OF USE:

Apply a thin coat of wax by hand or orbital polisher to clean unoxidized paint. Allow to dry to a haze. Remove by hand with a clean soft cloth or orbital polisher. Due to the silica film formers, starting with smaller surface areas and adjusting for less haze time is advised as formula can get grabby due to curing.

1. Can be used on a dry or wet surface, ensure the surface is clean.

3. Apply by hand or applicator.

4. Apply by hand with cloth or foam wax applicator, or by orbital polisher at low speed.

5. Remove with a clean soft microfiber towel. Keep flipping the towel for max gloss.

### HEALTH & SAFETY

Can cause eye irritation. Excessive inhalation may cause respiratory irritation. Ingestion can cause gastrointestinal irritation. Prolonged skin contact may cause slight irritation. Eyes: Flush with water for 15 minutes, call physician if irritation persists. Inhalation: Remove to fresh air, call physician if irritation persists. Ingestion: Do not induce vomiting, call physician.
