

EURO CUT

TECHNICAL DATA SHEET

REFERENCE: #13003
#13004

Sizes:

TECHNICAL DATA:

- Flash Point: >93.3 °C at 101.3 kPa >212 °F at 1 atm (closed cup)
- Appearance: Off-White
- Physical State: Paste/ Heavy Cream
- Odor: Characteristic
- Specific Gravity: 1.25 g/cm³ 10.31 lbs/US Gal (H₂O = 1)
- Dangerous Goods: Not regulated - US DOT, IATA, IMDG

DESCRIPTION:

EURO-CUT is a PASTE Compound presenting a state of the art premium PASTE technology compound. Very fast acting, super high gloss, designed to remove 1500 – 3000 grit sand scratches, oxidation and water spots. A world class engineered chemistry & formulation provides a high gloss, haze-free finish with easy clean-up and no swirling. Water based technology designed in Europe, meaning no fillers for permanent high quality results. Silicone-free, body shop safe and VOC compliant. Use with a range of applicators from wool to cutting foam for best results.

DIRECTIONS OF USE:

Always try to work in a shaded area on a cool painted surface.. Apply product evenly to a 3ft/sq. area at a time. Use a rotary polisher with a clean wool or compounding foam pad set at 1200 to 1800 rpm. Gently polish the surface using a 10% overlapping pattern. Keep the applicator flat and the stroke even, very little pressure is needed. As the compound material will diminish, (this is the polishing phase), inspect the paint surface. If the sand scratch is still visible, repeat.

1. Inspect surface. For removal of 1200 - 3000 grit sand scratches.

2. Attach clean, wool or foam pad, to the D.A. or Rotary machine.

3. Shake before use.

4. Apply to applicator and spread before starting machine.

5. Speed 1200 - 1800 rpm. For a DA mid to high speed and polish until the compounds almost disappears.

6. Polish until almost removed. Use clean microfiber to remove excess.

HEALTH & SAFETY

Can cause eye irritation. Excessive inhalation may cause respiratory irritation. Ingestion can cause gastrointestinal irritation. Prolonged skin contact may cause slight irritation. Eyes: Flush with water for 15 minutes, call physician if irritation persists. Inhalation: Remove to fresh air, call physician if irritation persists. Ingestion: Do not induce vomiting, call poison control immediately.
