Detroit Surface	e care – Acam B	3.V.	Revision nr. 2 Dated 05/06/2019
Sol		Printed on 14/08/2020	
	•		Page n. 1/11
			Replaced revision:1 (Dated: 12/03/2019)
	Safety Data	a Shoot	
Accord	ding to Annex II to REAC		
SECTION 1. Identification of the subs	stance/mixture ar	nd of the company/und	lertaking
1.1. Product identifier Code:	20007		
Product name	Solo Step		
1.2. Relevant identified uses of the substance or m Intended use Not available	ixture and uses advise	d against	
1.3. Details of the supplier of the safety data sheet Name	ACAM B.V.		
Full address District and Country	Duinweg 4b 5482VR Schijndel		
	NL		
	Tel. 0735478265 Fax 0735492305		
e-mail address of the competent person	Fax 0735492305		
responsible for the Safety Data Sheet	fvboxmeer@profclean	1.eu	
1.4. Emergency telephone number			
For urgent inquiries refer to	0735478265		
SECTION 2. Hazards identification			
2.1. Classification of the substance or mixture			
The product is classified as hazardous pursuant to the supplements). The product thus requires a safety datash			
Any additional information concerning the risks for healt	h and/or the environment	t are given in sections 11 and 12	of this sheet.
Hazard classification and indication:			
Aspiration hazard, category 1	H304	May be fatal if swallowe	d and enters airways.
2.2. Label elements			
Hazard labelling pursuant to EC Regulation 1272/2008 (CLP) and subsequent ar	mendments and supplements.	
Hazard pictograms:			

	Detroit Surface of	care – Acam B.V.	Revision nr. 2	
	Dated 05/06/2019			
Solo Step			Printed on 14/08/2020	
			Page n. 2/11	
			Replaced revision:1 (Dated: 12/03/2019)	
.	_			
Signal words:	Danger			
Hazard statements:				
H304	May be fatal if swallowed and	entere einverve		
H304	iviay be latal li Swallowed and	enters anways.		
Precautionary statements:				
P331	Do NOT induce vomiting.			
P301+P310		y call a POISON CENTER / doctor /		
Contains:				
Contains.	Contains: NAPHTHA (PETROL.) HYDROTREATED HEAVY Distillates(Petroleum), hydrotreated light			
2.3. Other hazards				
On the basis of available dat	ta, the product does not contai	n any PBT or vPvB in percentage greater than 0,1%.		
SECTION 3. Comp	osition/information o	on ingredients		
3.2. Mixtures				
Contains:				
Identification	x = Conc. %	Classification 1272/2008 (CLP)		
NAPHTHA (PETROL.)				
HYDROTREATED HEAVY CAS 64742-48-9	9≤x< 10	Asp. Tox. 1 H304, Classification note according to Anne	ex VI to the CI P	
	0 = 1 10	Regulation: P		
EC 265-150-3 INDEX 649-327-00-6				
Distillates(Petroleum) ,				
hydrotreated light CAS 64742-47-8	9≤x< 10	Asp. Tox. 1 H304		
EC 265-149-8				
INDEX -				

The full wording of hazard (H) phrases is given in section 16 of the sheet.

SECTION 4. First aid measures

4.1. Description of first aid measures

EYES: Remove contact lenses, if present. Wash immediately with plenty of water for at least 15 minutes, opening the eyelids fully. If problem persists, seek medical advice.

Solo Step

Revision nr. 2

Dated 05/06/2019 Printed on 14/08/2020

Page n. 3/11

Replaced revision:1 (Dated: 12/03/2019)

SKIN: Remove contaminated clothing. Rinse skin with a shower immediately. Get medical advice/attention immediately. Wash contaminated clothing before using it again.

INHALATION: Remove to open air. If the subject stops breathing, administer artificial respiration. Get medical advice/attention immediately. INGESTION: Get medical advice/attention immediately. Do not induce vomiting. Do not administer anything not explicitly authorised by a doctor.

4.2. Most important symptoms and effects, both acute and delayed

Specific information on symptoms and effects caused by the product are unknown.

4.3. Indication of any immediate medical attention and special treatment needed

Information not available

SECTION 5. Firefighting measures

5.1. Extinguishing media

SUITABLE EXTINGUISHING EQUIPMENT The extinguishing equipment should be of the conventional kind: carbon dioxide, foam, powder and water spray. UNSUITABLE EXTINGUISHING EQUIPMENT None in particular.

5.2. Special hazards arising from the substance or mixture

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE Do not breathe combustion products.

5.3. Advice for firefighters

GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

SECTION 6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Block the leakage if there is no hazard.

Wear suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing. These indications apply for both processing staff and those involved in emergency procedures.

6.2. Environmental precautions

The product must not penetrate into the sewer system or come into contact with surface water or ground water.

6.3. Methods and material for containment and cleaning up

Collect the leaked product into a suitable container. Evaluate the compatibility of the container to be used, by checking section 10. Absorb the remainder with inert absorbent material.

Make sure the leakage site is well aired. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

Solo Step

Revision nr. 2

Dated 05/06/2019

Printed on 14/08/2020 Page n. 4/11

Replaced revision:1 (Dated: 12/03/2019)

6.4. Reference to other sections

Any information on personal protection and disposal is given in sections 8 and 13.

SECTION 7. Handling and storage

7.1. Precautions for safe handling

Before handling the product, consult all the other sections of this material safety data sheet. Avoid leakage of the product into the environment. Do not eat, drink or smoke during use. Remove any contaminated clothes and personal protective equipment before entering places in which people eat.

7.2. Conditions for safe storage, including any incompatibilities

Store only in the original container. Store the containers sealed, in a well ventilated place, away from direct sunlight. Keep containers away from any incompatible materials, see section 10 for details.

7.3. Specific end use(s)

Information not available

SECTION 8. Exposure controls/personal protection

8.1. Control parameters

Deutschland

Regulatory References:

DEU

TRGS 900 (Fassung 31.1.2018 ber.) - Liste der Arbeitsplatzgrenzwerte und Kurzzeitwerte

NAPHTHA (PETROL.) HYDROTREATED HEAVY							
Threshold Limit Value							
Туре	Country	TWA/8h		STEL/15min			
		mg/m3	ppm	mg/m3	ppm		
MAK	DEU	300	50	600	100		
MAK	DEU	300	50	600	100		

Legend:

(C) = CEILING ; INHAL = Inhalable Fraction ; RESP = Respirable Fraction ; THORA = Thoracic Fraction.

8.2. Exposure controls

As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well aired through effective local aspiration.

When choosing personal protective equipment, ask your chemical substance supplier for advice.

Personal protective equipment must be CE marked, showing that it complies with applicable standards.

HAND PROTECTION

Protect hands with category III work gloves (see standard EN 374).

The following should be considered when choosing work glove material: compatibility, degradation, failure time and permeability.

The work gloves' resistance to chemical agents should be checked before use, as it can be unpredictable. The gloves' wear time depends on the duration

Revision nr. 2

Dated 05/06/2019 Printed on 14/08/2020

Page n. 5/11

Replaced revision:1 (Dated: 12/03/2019)

and type of use.

SKIN PROTECTION

Wear category I professional long-sleeved overalls and safety footwear (see Directive 89/686/EEC and standard EN ISO 20344). Wash body with soap and water after removing protective clothing.

EYE PROTECTION

Wear airtight protective goggles (see standard EN 166).

RESPIRATORY PROTECTION

If the threshold value (e.g. TLV-TWA) is exceeded for the substance or one of the substances present in the product, use a mask with a type A filter whose class (1, 2 or 3) must be chosen according to the limit of use concentration. (see standard EN 14387). In the presence of gases or vapours of various kinds and/or gases or vapours containing particulate (aerosol sprays, fumes, mists, etc.) combined filters are required.

Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. The protection provided by masks is in any case limited.

If the substance considered is odourless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus (in compliance with standard EN 137) or external air-intake breathing apparatus (in compliance with standard EN 138). For a correct choice of respiratory protection device, see standard EN 529.

ENVIRONMENTAL EXPOSURE CONTROLS

The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.

SECTION 9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	liquid
Colour	light brown
Odour	characteristic
Odour threshold	Not available
рН	Not available
Melting point / freezing point	Not available
Initial boiling point	100 °C
Boiling range	Not available
Flash point	Not available
Evaporation Rate	Not available
Flammability of solids and gases	Not available
Lower inflammability limit	Not available
Upper inflammability limit	Not available
Lower explosive limit	0,6 % (V/V)
Upper explosive limit	5,4 % (V/V)
Vapour pressure	Not available
Vapour density	Not available
Relative density	Not available
Solubility	Not available
Partition coefficient: n-octanol/water	Not available
Auto-ignition temperature	215 °C
Decomposition temperature	Not available
Viscosity	5000 cSt

Solo Step

Printed on 14/08/2020 Page n. 6/11

Replaced revision:1 (Dated: 12/03/2019)

Explosive properties	Not available
Oxidising properties	Not available
9.2. Other information	
VOC (Directive 2010/75/EC) :	9,00 %
VOC (volatile carbon) :	7,62 %
VOC (volatile carbon):	7,62 %

SECTION 10. Stability and reactivity

10.1. Reactivity

There are no particular risks of reaction with other substances in normal conditions of use.

10.2. Chemical stability

The product is stable in normal conditions of use and storage.

10.3. Possibility of hazardous reactions

No hazardous reactions are foreseeable in normal conditions of use and storage.

10.4. Conditions to avoid

None in particular. However the usual precautions used for chemical products should be respected.

10.5. Incompatible materials

Information not available

10.6. Hazardous decomposition products

Information not available

SECTION 11. Toxicological information

In the absence of experimental data for the product itself, health hazards are evaluated according to the properties of the substances it contains, using the criteria specified in the applicable regulation for classification. It is therefore necessary to take into account the concentration of the individual hazardous substances indicated in section 3, to evaluate the toxicological effects of exposure to the product.

11.1. Information on toxicological effects

Metabolism, toxicokinetics, mechanism of action and other information

Information not available

Information on likely routes of exposure

Information not available

Reuse, when possible. Product residues should be considered special hazardous waste. The hazard level of waste containing this product should be evaluated according to applicable regulations.

Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations. CONTAMINATED PACKAGING

Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

SECTION 14. Transport information

The product is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.

14.1. UN number

Not applicable

14.2. UN proper shipping name

Information not relevant					
SECTION 15. Regulatory information					
15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture					
Seveso Category - Directive 2012/18/EC: None					
Restrictions relating to the product or contained substances pursuant to Annex XVII to EC Regulation 1907/2006					
Product Point 3					
Substances in Candidate List (Art. 59 REACH)					
On the basis of available data, the product does not contain any SVHC in percentage greater than 0,1%.					
Substances subject to authorisation (Annex XIV REACH)					
None					
Substances subject to exportation reporting pursuant to (EC) Reg. 649/2012:					
None					
Substances subject to the Rotterdam Convention:					
None					
Substances subject to the Stockholm Convention:					
None					
Healthcare controls					
Workers exposed to this chemical agent must not undergo health checks, provided that available risk-assessment data prove that the risks related to t workers' health and safety are modest and that the 98/24/EC directive is respected.					
15.2. Chemical safety assessment					
No chemical safety assessment has been processed for the mixture and the substances it contains.					
SECTION 16. Other information					
Text of hazard (H) indications mentioned in section 2-3 of the sheet:					
Asp. Tox. 1Aspiration hazard, category 1H304May be fatal if swallowed and enters airways.
